🌐 iamhwr.github.io – Online Resume

When I was working at Motel One I developed a prototype mobile app. The app was intended to automate tasks in the hotel industry and enhance the user experience. Then last year in Thailand I met someone who helped me get deeper into in the coding world and I've been interested ever since to pursue a career in programming. Now back in the EU I've spent my time developing web and mobile applications as well as testing algorithmic strategies for the financial markets.
